Kata Pengantar

Publikasi Indikator Makro Sosial Ekonomi Provinsi Sulawesi Utara Triwulan II-2022 ini diterbitkan oleh Badan Pusat Statistik Provinsi Sulawesi Utara dalam tampilan infografis. Hal ini bertujuan agar laporan ini mudah dipahami dengan baik oleh semua pengguna data. Data dan informasi yang dimuat merupakan data terkini tentang indikator makro penting, baik ekonomi dan sosial. Publikasi ini dimaksudkan untuk melengkapi bahan penyusunan kebijakan dan evaluasi kemajuan yang dicapai baik di bidang sosial dan ekonomi di Sulawesi Utara.

Melalui publikasi ini, BPS Provinsi Sulawesi Utara mengharapkan agar setiap pembaca dapat memahami persoalan di Sulawesi Utara dengan cara yang sederhana dan tepat. Untuk perbaikan ke depan, kami sangat mengharapkan saran dan kritik dalam penyempurnaan publikasi ini. Terima kasih.

Manado, Agustus 2022
Kepala Badan Pusat Statistik
Provinsi Sulawesi Utara,

Asim Saputra SST, M.Ec.Dev.

Preface

The Publication of Macro Socio-Economic Indicator of Sulawesi Utara 2nd Quarter 2022 published by BPS-Statistics of Sulawesi Utara Province is displayed in infographics. The data and information contained are current data on important macro indicators, both economic and social. This publication is intended to supplement the material for policy formulation and evaluation of progress achieved both in the social and economic fields in Sulawesi Utara.

Through this publication, BPS-Statistics of Sulawesi Utara Province expects each reader to understand the problem in Sulawesi Utara simply and appropriately. For future improvement, we look forward to suggestions and criticisms in improving this publication. Thank you.

Nilai Tukar Petani

Farmer's Term of Trade

Nilai Tukar Petani Sulawesi Utara Triwulan II-2022
Farmer's Term of Trade of Sulawesi Utara 2nd Quarter 2022

Nilai Tukar Petani (NTP) adalah pengukur kemampuan tukar produk pertanian yang dihasilkan petani dengan barang jasa yang diperlukan untuk konsumsi rumah tangga dan keperluan dalam memproduksi produk pertanian

Farmer's Term of Trade (FTT) is a measure of the exchange ability of agricultural commodities produced by farmers with some goods/services needed for household consumption and production cost

NTP Sulawesi Utara selama Triwulan II-2022 menunjukkan bahwa secara umum petani mengalami surplus, dimana indeks harga yang dibayar petani lebih kecil dibandingkan dengan indeks harga yang diterima petani.

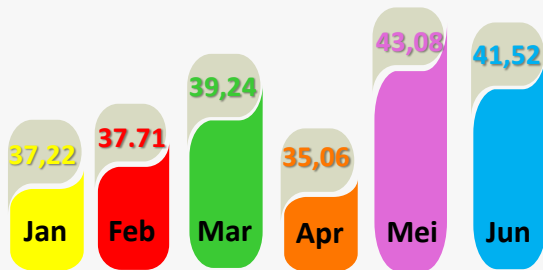

Sulawesi Utara's FTT in 2nd Quarter 2022 showed that in general, farmers experienced a surplus, where the price index paid by farmers is smaller than the price index received by farmers.
