## **KATA PENGANTAR**

Publikasi Statistik Industri Besar dan Sedang tahun 2011 yang diterbitkan oleh Badan Pusat Statistik Provinsi Kalimantan Selatan ini merupakan kelanjutan dari publikasi sebelumnya mengenai sektor industri manufaktur. Data yang disajikan dalam publikasi ini merupakan hasil pengolahan Survei Tahunan Industri Manufaktur Skala Besar dan Sedang pada tahun 2011 di Provinsi Kalimantan Selatan yang dikumpulkan sepanjang tahun 2012.

Data yang disajikan dalam publikasi ini terbatas pada kegiatan industri besar dan sedang, yaitu perusahaan/industri manufaktur yang mempunyai tenaga kerja 20 orang atau lebih. Seperti halnya pada tahun sebelumnya, publikasi ini menyajikan data mengenai kegiatan perusahaan industri yang ada di Provinsi Kalimantan Selatan seperti jumlah perusahaan, jumlah tenaga kerja, pengeluaran untuk tenaga kerja, output, input dan nilai tambah.

Dengan diterbitkannya publikasi ini, diharapkan dapat lebih melengkapi informasi bagi para pengguna data mengenai industri manufaktur. Kepada semua pihak khususnya para pengusaha yang telah memberikan data sehingga membantu penerbitan publikasi ini, disampaikan terima kasih. Kritik dan saran yang bersifat konstruktif sangat diharapkan untuk perbaikan publikasi di masa mendatang.

## P R E F A C E

Industrial Statistical Yearbook 2011 is published by BPS – Statistics of South Kalimantan Province as a continuation of previous publications on the manufacturing sector. The data presented in this publication is the result of processing the Annual Survey of Industrial Processing of Large and Medium Scale which includes data processing industry enterprises of large and medium scale in 2011 in South Kalimantan Province collected during the year 2012.

The data presented in this publication is limited to large and medium industrial activities, the company / industry that have a workforce of 20 or more. As in previous years, this publication presents data on the activities of industrial companies in South Kalimantan Province, such as number of establishments, total employment, expenditures for labor, output, input and value added.

With the issuance of this publication, it is expected to complete information for data users on the manufacturing industry. To all parties, especially the entrepreneurs who have provided data that helped the issuance of this publication, conveyed thanks. Constructive suggestions and criticism is expected to improve in future publications.

## PENJELASAN UMUM

### I PENDAHULUAN

Industri merupakan suatu kegiatan ekonomi untuk meningkatkan kesejahteraan masyarakat, yaitu mencapai kualitas kehidupan yang lebih baik. Sehingga pembangunan industri tidak hanya mencapai kegiatan mandiri saja, tetapi mempunyai tujuan pokok untuk meningkatkan kesejahteraan masyarakat di sekitarnya. Dengan adanya pembangunan industri maka akan memacu dan mengangkat pembangunan sektor-sektor lainnya seperti sektor perdagangan, pertanian ataupun sektor jasa. Dengan berkembangnya sektor-sektor lanjutan dari sektor industri tersebut, maka akan mendukung laju pertumbuhan industri. Dengan demikian maka akan menyebabkan meluasnya peluang kerja yang pada akhirnya akan meningkatkan pendapatan dan permintaan masyarakat (*daya beli*). Selain itu pembangunan industri juga dapat untuk meningkatkan kualitas sumber daya manusia dengan kemampuannya memanfaatkan sumberdaya secara optimal.

Sektor industri dalam perekonomian Kalimantan Selatan mengalami perubahan yang cukup berbeda dibandingkan dengan perubahan di daerah-daerah lain, hal ini dikarenakan adanya pergeseran peranan dari industri yang menggunakan hasil hutan ke arah industri yang bergerak di bidang agro. Selama 7 (tujuh) tahun terakhir banyak industri yang mengandalkan hasil hutan mengalami tutup produksi karena kesulitan bahan baku, sedangkan industri di sektor agro mengalami pertumbuhan.

Dalam kurun waktu enam tahun terakhir peranan industri manufaktur dalam perekonomian Kalimantan Selatan menunjukkan penurunan kontribusi dari 11,68 persen pada tahun 2006 menjadi 10,59 persen pada tahun 2010 dan 10,29 persen pada tahun 2011. Meskipun nilai tambah sektor yang dihasilkan mengalami

peningkatan namun akselerasi pertumbuhan yang dihasilkan sektor industri manufaktur tidak secepat pertumbuhan sektor ekonomi yang lain terutama sektor pertambangan, keuangan dan jasa-jasa.

Agar data perusahaan industri manufaktur dapat tercatat dengan baik dan banyaknya kebutuhan akan data mengenai perusahaan industri, maka kegiatan pengumpulan dan pengolahan data industri besar/ sedang dilaksanakan oleh BPS setiap tahun sejak tahun 1975. Data yang dihasilkan mencakup variabel jumlah perusahaan, jumlah tenaga kerja, pengeluaran untuk tenaga kerja, tenaga listrik, bahan bakar yang digunakan, nilai input, nilai output dan nilai tambah.

## **II RUANG LINGKUP**

### **1. Ruang Lingkup Survei**

Perusahaan/usaha industri yang dicakup dalam Survei Tahunan Industri Pengolahan Besar dan Sedang tahun 2011 adalah perusahaan industri yang mempunyai tenaga kerja 20 orang atau lebih. Termasuk di sini perusahaan industri besar/ sedang yang baru berdiri/berproduksi secara komersial pada tahun 2011, dan terlewat cacah pada periode survei tahun sebelumnya.

### **2. Pengumpul Data**

Petugas pengumpul data dalam survei ini adalah Koordinator Statistik Kecamatan (KSK) atau staf Badan Pusat Statistik Kabupaten/Kota yang dibekali surat tugas.

### **3. Manfaat Survei**

Bagi pemerintah, hasil survei ini digunakan untuk mendukung perencanaan pembangunan khususnya sektor industri pengolahan. Sedangkan bagi pengusaha,

data dari hasil survei ini dapat digunakan untuk menghitung pangsa pasar perusahaan baik secara nasional maupun regional, dalam rangka pengembangan usaha.

#### **4. Konsep dan Definisi**

- ✚ Industri pengolahan adalah suatu kegiatan ekonomi yang melakukan kegiatan mengubah suatu barang dasar secara mekanis, kimia, atau dengan tangan sehingga menjadi barang jadi atau setengah jadi dan atau barang yang kurang nilainya menjadi barang yang lebih tinggi nilainya, dan sifatnya lebih dekat kepada pemakai akhir.
- ✚ Perusahaan atau usaha industri adalah suatu unit (kesatuan) usaha yang melakukan kegiatan ekonomi, bertujuan menghasilkan barang atau jasa, terletak pada suatu bangunan atau lokasi tertentu, dan mempunyai catatan administrasi tersendiri mengenai struktur biaya serta ada seorang atau lebih yang bertanggung jawab atas usaha tersebut.
- ✚ Industri besar adalah perusahaan industri yang mempunyai tenaga kerja 100 (seratus) orang atau lebih tanpa memperhatikan apakah perusahaan tersebut menggunakan tenaga mesin atau tidak, serta tanpa memperhatikan besarnya modal perusahaan.
- ✚ Industri sedang adalah perusahaan industri yang mempunyai tenaga kerja 20 (dua puluh) orang sampai 99 (sembilan puluh sembilan) orang tanpa memperhatikan apakah perusahaan itu menggunakan tenaga mesin atau tidak, serta tanpa memperhatikan besarnya modal perusahaan itu.

### **III PENGGUNAAN KLASIFIKASI INDUSTRI**

Klasifikasi industri yang digunakan dalam survei industri ini adalah klasifikasi yang berdasar kepada INTERNATIONAL STANDARD INDUSTRIAL CLASSIFICATION OF

ALL ECONOMICS ACTIVITIES (ISIC) revisi 3 tahun 1990, yang telah disesuaikan dengan kebutuhan dan kekhususan yang terdapat di Indonesia, dengan nama KLASIFIKASI BAKU LAPANGAN USAHA INDONESIA (KBLI 2009). KBLI yang digunakan dalam publikasi ini adalah KBLI tahun 2009 yang merupakan penyempurnaan dari KBLI tahun 2005. Kode KBLI suatu perusahaan ditentukan berdasarkan produksi utamanya, yaitu jenis komoditi yang dihasilkan dengan nilai paling besar. Apabila suatu perusahaan industri menghasilkan 2 komoditi atau lebih dengan nilai yang sama, maka produksi utama adalah komoditi yang dihasilkan dengan kuantitas terbesar.

#### **IV METODE PENGUMPULAN DATA**

Pelaksanaan survei industri ini dilakukan dengan cara memberikan daftar pertanyaan (*questionnaire*) kepada semua perusahaan industri yang tergolong besar dan sedang yang tercatat dalam direktori BPS. Jadi pencacahan yang dilakukan dalam survei ini dilakukan secara lengkap (*complete enumeration*).

#### **V ULASAN SINGKAT**

Gambaran perekonomian kelompok industri manufaktur di Provinsi Kalimantan pada tahun 2011 Selatan dapat dijelaskan sebagai berikut :

##### **1. Jumlah Perusahaan**

Dalam kurun waktu enam tahun (2004 – 2010), jumlah perusahaan industri besar dan sedang di Provinsi Kalimantan Selatan terus mengalami penurunan. Pada tahun 2004 jumlah industri yang ada tercatat sebanyak 120 perusahaan, sedangkan

pada tahun 2010 hanya sebanyak 92 perusahaan. Namun pada tahun 2011, jumlah perusahaan industri besar dan sedang di Provinsi Kalimantan Selatan bertambah lagi menjadi 99 perusahaan. Kelompok industri yang mengalami pertumbuhan adalah industri makanan (KBLI-10), industri kayu, barang dari kayu/gabus dan barang anyaman dari bambu & rotan (KBLI-16), industri karet & barang dari karet (KBLI-22) dan jasa reparasi & pemasangan mesin/peralatan (KBLI-33).

Tabel 1.

Jumlah Perusahaan dan Tenaga Kerja Industri Besar/Sedang Tahun 2004 – 2011

Tahun	Jumlah Perusahaan	Jumlah Tenaga Kerja
(1)	(2)	(3)
2004	120	46.259
2005	116	40.532
2006	127	33.548
2007	125	31.447
2008	106	34.365
2009	98	27.374
2010	92	24.405
2011	99	25.060

## 2. Jumlah Tenaga Kerja

Sejalan dengan jumlah industri, jumlah tenaga kerja yang terserap dalam kurun waktu enam tahun juga mengalami penurunan, dari 40.532 orang pada tahun 2004 menjadi 24.405 orang pada tahun 2010 atau tinggal 49,54 persennya. Pada tahun 2011 jumlah tenaga kerja yang terserap mulai meningkat lagi, menjadi 25.060

orang, hal ini merupakan imbas dari pertumbuhan jumlah industri besar dan sedang, yakni kelompok industri makanan, kayu, karet dan jasa reparasi mesin/peralatan.

Pada tahun 2011, ada 3 kelompok industri yang mampu menyerap cukup banyak tenaga kerja, yakni kelompok industri makanan (KBLI-10) yang mampu menyerap tenaga kerja sebanyak 11.707 orang atau 46,72 persen, kemudian kelompok industri kayu, barang dari kayu/gabus dan barang anyaman dari bambu & rotan (KBLI-16) sebanyak 8.153 orang atau 32,53 persen dan kelompok industri karet, barang dari karet dan plastik (KBLI-22) yang mampu menyerap tenaga kerja sebanyak 2.313 orang atau 9,23 persen.

### **3. Tingkat Upah**

Pada tahun 2011 pengeluaran perusahaan untuk biaya tenaga kerja (meliputi upah/gaji dan insentif lainnya) yang dikeluarkan perusahaan industri besar/sedang di Provinsi Kalimantan Selatan mencapai 1,027 trilyun rupiah dari 99 perusahaan yang ada. Kelompok industri yang menyumbang pengeluaran yang tinggi untuk pekerja, secara keseluruhan adalah kelompok industri makanan (KBLI-10) yang mencapai 521,6 milyar atau 50,76 persen, dengan tingkat upah pekerja sebesar 3,71 juta rupiah per bulan. Diikuti oleh kelompok industri industri kayu, barang dari kayu/gabus dan barang anyaman dari bambu & rotan (KBLI-16) sebesar 313,6 milyar atau 30,52 persen, dengan tingkat upah pekerjanya sebesar 3,21 juta rupiah per pekerja per bulan. Dan kelompok industri karet dan barang dari karet (KBLI-22) yang mencapai 93,88 milyar atau 9,14 persen, dengan tingkat upah pekerja sebesar 3,38 juta rupiah setiap bulannya.

Sedangkan rata-rata tingkat upah dan insentif lainnya pekerja di kelompok industri besar/sedang secara keseluruhan adalah sebesar 3,42 juta rupiah per bulan. Hanya saja, besaran upah/gaji ini sangat variatif pada tiap perusahaannya. Tingkat upah terbesar diterima oleh pekerja di kelompok industri makanan (KBLI-10), yakni

sebesar 3,71 juta rupiah per bulan, sedangkan tingkat upah pekerja yang paling kecil adalah di kelompok industri pakaian jadi (KBLI-14), yakni sebesar 160 ribu rupiah per bulan.

#### **4. Pemakaian Bahan Bakar**

Selama tahun 2011, secara umum bahan bakar yang digunakan pada industri besar/ sedang yaitu bensin, solar, minyak tanah, batu bara dan bahan bakar lainnya (gas PGN & LPG). Penggunaan bahan bakar dan pelumas oleh perusahaan industri besar/ sedang di Provinsi Kalimantan Selatan selama tahun 2011 mencapai 795,6 milyar rupiah. Bahan bakar yang paling banyak digunakan selama tahun 2011 adalah minyak solar dengan nilai 459,3 milyar rupiah, diurutkan berikutnya adalah batubara dan bensin, masing-masing sebesar 247,1 miliar rupiah dan 74,3 milyar rupiah.

Industri yang paling banyak menggunakan bahan bakar adalah kelompok industri makanan (KBLI-10), yang mencapai 320 miliar rupiah per tahun atau 40,22 persen dari total pemakaian bahan bakar industri, disusul kelompok barang galian bukan logam (KBLI-23) sebesar 290,4 milyar per tahun atau 36,50 persen, sedangkan industri yang paling sedikit dalam pemakaian bahan bakar adalah kelompok industri pengolahan lainnya (KBLI-32), yakni hanya 3,48 juta rupiah per tahun.

#### **5. Nilai Tambah**

Nilai tambah merupakan pertambahan nilai karena suatu komoditi mengalami proses pengolahan, pengangkutan dan penyimpanan dalam suatu proses produksi. Nilai tambah yang dihasilkan inilah nantinya akan dinikmati oleh pengusaha dan buruh/karyawan dalam bentuk keuntungan, upah/gaji, serta dana-dana lain untuk pembayaran berbagai pengeluaran seperti bunga pinjaman dan sewa alat-alat lainnya.

Pada tahun 2011, nilai output industri besar/ sedang di Provinsi Kalimantan Selatan sebesar 41,16 trilyun rupiah dengan biaya antara (input antara) sebesar 27,80 trilyun rupiah. Dengan demikian nilai tambah dari kegiatan industri besar/ sedang selama tahun 2011 adalah sebesar 13,36 trilyun rupiah. Setelah dikurangi dengan pajak tak langsung, didapatlah nilai tambah biaya faktor sebesar 13,30 trilyun rupiah.

Nilai tambah terbesar diperoleh kelompok industri makanan (KBLI-10) yaitu sebesar 8,87 trilyun rupiah atau 66,40 persen dari total seluruh nilai tambah industri besar/ sedang di Provinsi Kalimantan Selatan. Disusul nilai tambah kelompok industri barang galian bukan logam (KBLI-23) sebesar 2,13 trilyun rupiah atau 15,96 persen dan kelompok industri karet, barang dari karet dan plastik (KBLI-22) sebesar 1,32 trilyun rupiah atau 9,91 persen. Sedangkan nilai tambah terkecil adalah dari kelompok industri pakaian jadi (KBLI-14) yakni sebesar 1,57 milyar rupiah atau sebesar 0,01 persen dari total nilai tambah sektor industri. Secara rinci, besarnya nilai tambah untuk masing-masing kelompok industri dapat dilihat pada lampiran tabel 11.

## GENERAL DESCRIPTION

### I. INTRODUCTION

Industry is an economic activity in order to increase the welfare of society, namely achieving a better quality of life, so that industrial development does not only achieve independent activity, but also has the main purpose to increase the welfare of the surrounding society. Hopefully, this industry development will spur and raise the development of other sectors such as trading, agriculture or services. With the development of advanced sectors of industry, it will support the rate of industrial development. By then, it will cause a widespreading of job opportunities that ultimately will increase revenues and public demand (purchasing power). Moreover, the industrial development can also improve the quality of human resources by its ability to utilize many resources optimally.

The industrial sector in South Kalimantan Province's economy changes differently from other areas, it happens due to a transitional role of the industries that depend on forest products toward the industries that engaged in agro. Over the last 7 years, many industries which rely on forest products had closed because of the lack of raw materials, while the agro-industrial sector keeps growing.

Within the last six years, the role of manufacturing industry in South Kalimantan Province's economy have showed a decreasing contribution from 11.68 percent in 2006 become 9.86 percent in 2009 then 9.58 percent in 2010 and finally down to 9.19 percent in 2011. Although the sectors' value-added generated an increase number, but the acceleration of growth from manufacturing industry sector is not growing as fast as the growth of other economic sectors, especially mining, finance and services.

In order to make the manufacturing-industry companies's datas can be recorded properly and the request for industrial companies's data is increasing well, BPS has been implementing the activities for data collection and tabulation of large/medium industrial every year since 1975. The resulting data's includes many variables, namely: number of firms, number of employees, expenditures for labors, electricities, fuel used, input values, output values, and value-added.

## II. COVERAGE

### 1. Survey Coverage

Industrial companies covered by the Annual Survey of Large and Medium Manufacturing Industries 2011 are industrial companies which have 20 or more labors, including large and medium companies which have been established commercially in 2008, and the missed-count companies at the previous year's survey.

### 2. Data Collector

The data collectors for this survey are the Statistical District Coordinator (Koordinator Statistik Kecamatan/KSK) or staffs from Regency/City BPS who are equipped with official letter of assignment.

### 3. Survey's Benefit

For the government, the results of this survey are used to support development planning, especially the manufacturing sector. And for the companies, the data's from this survey can be used to calculate company's market share both nationally nor regionally, in the context of business development.

### 4. Concept and Definition

- ✚ Processing industry is an economic activity engaged in activities to change the basic materials mechanically, chemically, or by hand to be finished products or semi-finished products or to increase goods with less value into higher value, and to make them get near to the end user.
- ✚ Industrial company is a business units (corps) that performs many economic activities in order to produce goods or services, and located in a building or specific area, and has its own administrative records about cost structures and there is one or more persons who are responsible for the business.

- ✚ A large industrial company is a company that has 100 (one hundred) or more labors regardless whether the company uses machines or not and whether the company has much capital or not.
- ✚ A medium industrial company is a company that has 20 (twenty) to 99 (ninety nine) labors regardless whether the company uses machines or not and whether the company has much capital or not.

### **III USE OF INDUSTRIAL CLASSIFICATION**

Industrial classification used in this industrial survey is the classification that is based on International Standard Industrial Classification of All Economic Activities (ISIC) revision 3 of 1990, adjusted according to the condition in Indonesia called **KLASIFIKASI BAKU LAPANGAN USAHA INDONESIA (KBLI)** or Indonesian Standard Industrial Classification. ISIC code for a company is determined based on its primary production, specifically the type of commodities which produce the greatest value. When an industrial company produces 2 or more commodities with the same value, then the main production is the commodity which produces the greatest quantity.

### **IV. METHOD OF DATA COLLECTION**

The implementation of this industrial survey is done by providing a list of questions (questionnaire) to all industrial companies classified as large and medium that is listed in the BPS's directory. By then, the census conducted in this survey is carried out completely (complete enumeration).

### **V. BRIEF REVIEWS**

The economic description of manufacturing industry sectors in South Kalimantan Province in 2011 can be explained as follows:

#### **1. Number of Companies**

Within the six years, the number of large and medium industrial companies in South Kalimantan Province keeps decreasing. In 2004, the number of existing industries was 120

companies, while in 2010 there were only 92 companies left. However, in 2011 the number of large and medium industrial companies in South Kalimantan Province which reached 99 companies. The growing industrys is food industry sector (KBLI-10), followed by timber industry, commodity of wood and wickerwork sector (KBLI-16) and finally the rubber and commodity of rubber sector (KBLI-22).

Table 1.  
Number of Establishments and Companies Workers in Large and Medium Industries  
During 2004 – 2011

Year	Number of Companies	Number of workers
(1)	(2)	(3)
2004	120	46.259
2005	116	40.532
2006	127	33.548
2007	125	31.447
2008	106	34.365
2009	98	27.374
2010	92	24.405
2011	99	25.060

## 2. Number of Workers

In linewith industrial quantities, the total number of absorbed workers within the six year shad also decreased, from 40,532 labors in 2004 into 24,405 people or 49.54 percent in 2010. However, ini 2011 the total number of absorbed workers increased as 25.060 labors. In 2011 there are 3 sectors which absorbed many workers, they are : food industry sector (KBLI-10) for 46.72 percent (11,707 labors), followed by timber industry, commodity of wood

and wickerwork sector (KBLI-16) for 8,153 labors or 32.53 percent, and finally the rubber and commodity of rubber (KBLI-22) sector that absorbed 2,313 labors or 9.23 percent.

### **3. Wage Rate**

In 2011, the large and medium industrial companies' expenses for labor cost (including wages/salaries and other incentives) in South Kalimantan Province was more than 1.02 trillion Rupiahs from the existing 99 companies. The highest spending for the labor cost was from the food industry (KBLI-10) that reached 521.6 billion or 50.76 percent with the wage rate as 3.71 million per month. Followed by the timber industry, commodity of wood and wickerwork (KBLI-16) with the wage rate 3.2 million rupiah per month for 313.6 billion or 30.52 percent. And the rubber and commodity of rubber industries (KBLI-22) reached 93.9 billion or 9.14 percent, with the wage rate 3.38 million rupiahs per month.

The average rate of wages and other incentives for the workers in the large and medium industrial overall is 3.42 million rupiahs per month. However, this amount of wage/salary is very varied in each company. The highest wage rate is received by labors who work in food industry (KBLI-10) which reaches 3.71 billion rupiahs per month, while the smallest is those in wearing apparel industry (KBLI-14), for 160 thousand rupiahs per month.

### **4. Fuel Consumption**

During 2011, the general fuel used by large and medium industry was gasoline, diesel, lubricating oil, coal and other fuels. The used of fuel by large and medium industrial companies in South Kalimantan Province during 2011 reached 795.6 billion rupiahs. The most used fuel during 2011 was diesel, worth by 459.3 billion rupiahs. Followed by the slightly above the coal which reached 247.1 billion rupiahs and gasoline which reached 74.3 billion rupiahs.

The industry that mostly used fuel was food industry (KBLI-10) for 320 billion rupiahs or 40.22 percent from the total consumption of industrial fuel, followed by the non-metallic industry (KBLI-23) for 290.4 billion rupiahs per month or 36.50 percent. And the industry that

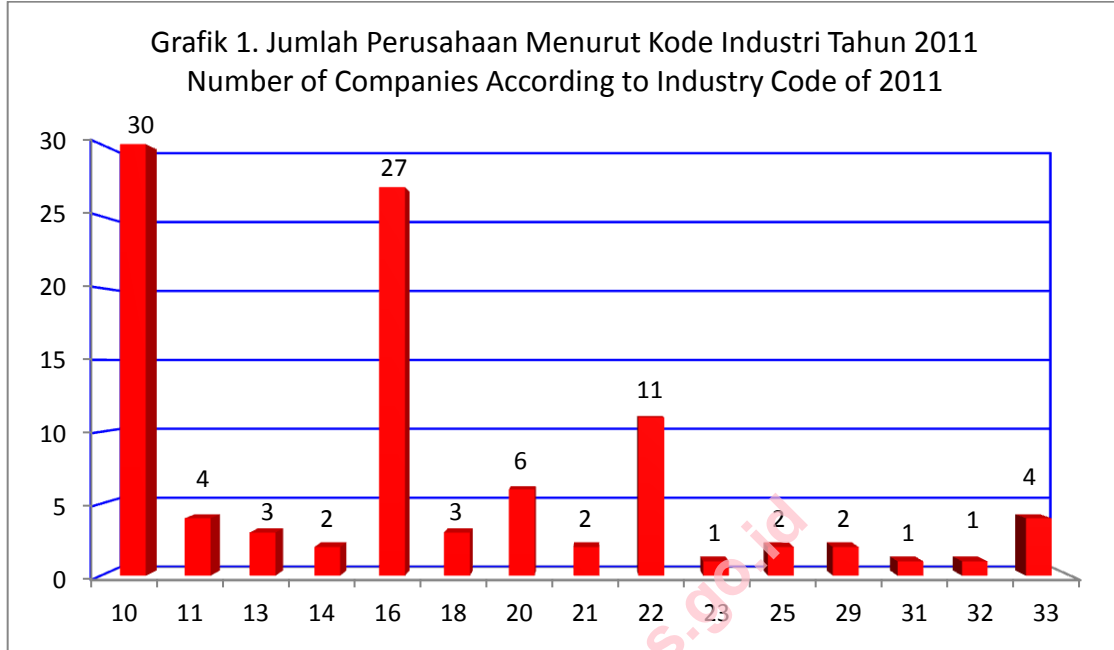

used fuel most least was the other processing industry sector (KBLI-32) for only 3.48 million rupiahs per years.

## 5. Value Added

Value added is the addition for a commodity value because of the producing, transporting and storing process. This generated value added will be perceived by entrepreneurs and workers/employees in the form of profits, wages/salaries, and also other funds for the payment of various expenses such as interest loans and leases of other tools.

In 2011, the output value of large and medium industries in South Kalimantan Province is 41.16 trillion rupiahs with the intermediate cost (intermediate input) for about 27.80 trillion rupiahs. Thus, the value added from large and medium industrial activities during 2011 was about 13.36 trillion rupiahs, minus indirect tax, the value added factor cost about 13.30 trillion rupiahs.

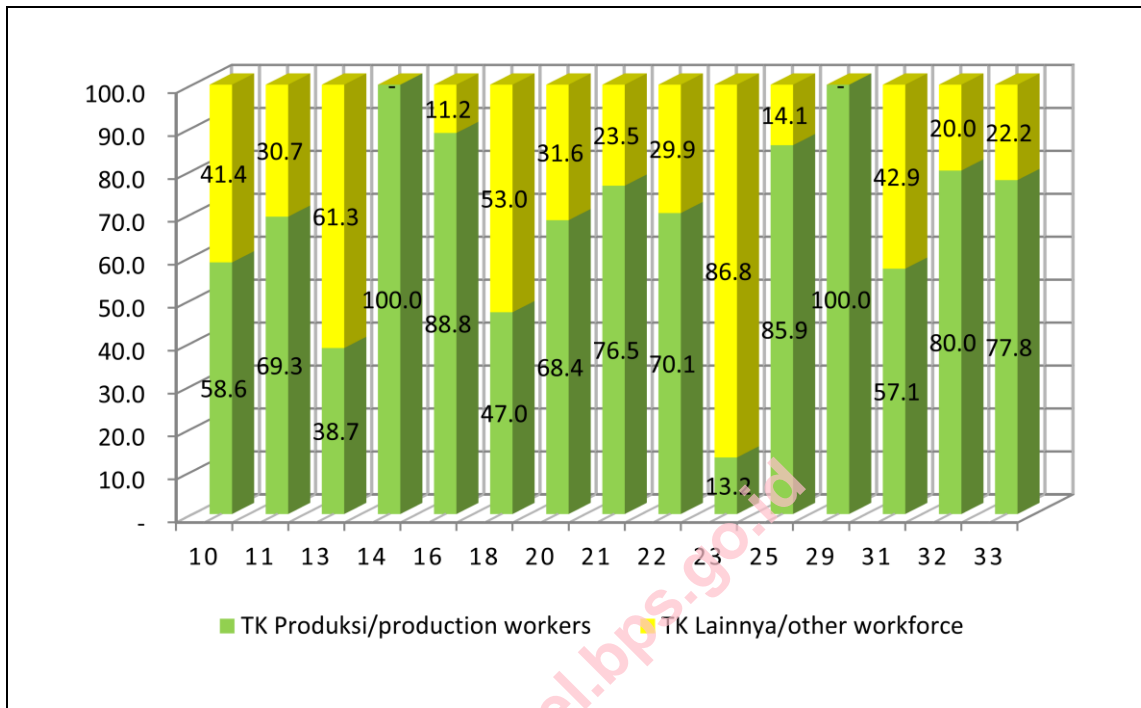

The highest value added was obtained from food industry (KBLI-10) for 8.87 trillion rupiahs, or 66.40 percent of all value added from large and medium industries in South Kalimantan Province, followed by value added from non-metallic industry (KBLI-23) as 2.13 trillion rupiahs or 15.96 percent, then rubber and plastic commodity industry (KBLI-22) for 1.32 trillion rupiahs (9.91 percent). While the smallest was the value added from the wearing apparel industry (KBLI-14) for 1.57 billion rupiahs, or 0.01 percent of the total industrial sectors value-added. In detail, the amount of value added for each group of industry can be seen in the table 11 (appendix).

- 16. Industri kayu, barang dari kayu (tidak termasuk furniture), dan barang-barang anyaman/  
Manufacture of wood and products of wood (excluding furniture), and woven goods
- 18. Industri Penerbitan, Percetakan dan Reproduksi Media Rekaman/  
Publishing industry, printing and recording reproduction of recorded media
- 20. Industri bahan kimia dan barangdari bahan kimia/Chemical industry and chemical goods
- 21. Industri bahan farmasi/Pharmaceuticalsindustry
- 22. Industri karet, barang dari karet dan plastik /Manufacture of rubber and plastic goods
- 23. Industri barang galian bukan logam/Non metallic mineral products industry
- 25. Industri baranglogam kecuali mesin dan peralatannya/  
Manufacture of metal goods except machinery and equipment
- 29. Industri kendaraan bermotor, trailer dan semi trailer/ Motor vehicle, trailer and semi-trailer
- 31. Industri furnitur/Manufacture of furniture
- 32. Industri pengolahan lainnya/Other manufacturing industries
- 33. Jasa reparasi dan pemasangan mesin dan peralatan/Service of reparation and installation of  
machinery and equipment

Grafik 4. Proporsi Pemakaian Bahan Bakar/Pelumas Industri Besar Sedang Tahun 2011/  
Proportion use of fuel and lubricants large/medium industry in 2011

**KODE KLASIFIKASI INDUSTRI**  
**INDUSTRIAL CLASSIFICATION CODE**

<http://kalsi.kps.go.id>

**KODE KLASIFIKASI INDUSTRI**  
*INDUSTRIAL CLASSIFICATION CODE*

**I. GOLONGAN POKOK - MAJOR GROUP**

1. 10 Makanan – *Food products*
2. 11 Minuman - *Beverages*
3. 13 Tekstil - *Textiles*
4. 14 Pakaian jadi – *Wearing apparel*
5. 16 Kayu, barang dari kayu (tidak termasuk furnitur), dan barang-barang anyaman – *Wood and products of wood except furniture and plaiting materials*
6. 18 Penerbitan, percetakan dan reproduksi media rekaman - *Publishing, printing and reproduction of recorded media*
7. 20 Kimia dan barang-barang dari bahan kimia – *Chemicals and chemical products*
8. 21 Farmasi, produk obat kimia dan obat tradisional – *Pharmacy, Chemical and traditional medicines*
9. 22 Karet dan barang dari karet – *Rubber and rubber products*
10. 23 Barang galian bukan logam – *Other non metallic mineral product*
11. 25 Barang-barang dari logam kecuali mesin dan peralatannya – *Fabricated metal products, except machinery and equipment*
12. 29 Industri kendaraan bermotor, trailer dan semi trailer – *Motor vehicle, trailers and semi-trailers*
13. 31 Furnitur – *Furniture*
14. 32 Alat musik tradisional - *Traditional musical instrument*
15. 33 Jasa reparasi dan pemasangan mesin dan peralatan – *Service of reparation and intellation of machinery and equipment*

## II. GOLONGAN – GROUP

1. 102 Pengolahan dan pengawetan ikan dan biota air – *Processing and preserving of fish and other aquatic biota*
2. 104 Pengolahan minyak makan kelapa sawit – *manufacture of crude palm oil*
3. 107 Makanan lainnya – *Other food*
4. 108 Industri konsentrat makanan hewan – *Concentrate animal feedings industry*
5. 110 Minuman – *Beverages*
6. 131 Pemintalan, pertenunan, pengolahan akhir tekstil – *Spinning, weaving and finishing of textile*
7. 141 Pakaian jadi, kecuali pakaian jadi berbulu – *Wearing apparel, except wearing apparel made of fur*
8. 161 Penggergajian dan pengawetan kayu – *Sawmill and preserving of wood*
9. 162 Barang-barang dari kayu, dan barang-barang dari anyaman – *Goods made from wood and plaits*
10. 181 Penerbitan – *Publishing*
11. 201 Bahan kimia industri – *Industrial chemicals*
12. 202 Barang-barang kimia lainnya – *Other chemicals*
13. 210 Produk obat kimia dan obat tradisional – *Chemical and traditional medicines*
14. 221 Karet dan barang dari karet – *Rubber and goods made from rubber*
15. 239 Semen, kapur dan gips – *Cement, lime plaster and gips*

- |     |     |   |
|-----|-----|---|
| 16. | 259 | Barang logam lainnya, dan kegiatan jasa pembuatan barang-barang dari logam – <i>Other metal products and services of metallic products processing</i> |
| 17. | 293 | Industri kendaraan bermotor, trailer dan semi trailer – <i>Motor vehicle, trailers and semi-trailers</i>  |
| 18. | 310 | Furnitur - <i>Furniture</i>   |
| 19. | 322 | Alat musik tradisional - <i>Traditional musical instrument</i>  |
| 20. | 331 | Jasa reparasi dan pemasangan mesin dan peralatan – <i>Service of Reparation and intellation of machinery and squipment Ships / boats</i>              |

<http://kalsel.bps.go.id>

### III. KELOMPOK – CLUSTER

1. 10213 Pembekuan ikan dan biota perairan lainnya – *Frozen fish*
2. 10293 Pembekuan biota air lainnya – *Frozen other similar products*
3. 10431 Minyak makan kelapa sawit – *Crude palm oil*
4. 10710 Produk roti dan kue – *Bakery and cake products*
5. 10740 Makaroni, mie, dan produk sejenisnya – *Macaroni, noodles, spaghetti and the like*
6. 10761 Pengolahan teh dan kopi – *Processed of tea and coffee*
7. 10771 Kecap – *Soya sauce*
8. 10793 Makanan dari kedelai dan kacang-kacangan lainnya selain kecap Tempe dan tahu – *Other food made of soya bean/other nuts*
9. 10802 Industri konsentrasi makanan hewan – *Concentrate animal feedings industry*
10. 11040 Minuman ringan – *Soft drinks*
11. 11050 Air minum dan air mineral – *Drinking water and mineral water*
12. 13132 Penyempurnaan kain – *Manufacture of finished textiles*
13. 13133 Pencetakan kain – *Fabric printing*
14. 14111 Pakaian jadi (konveksi) dari tekstil – *Wearing apparel made of textile (garment)*
15. 14131 Perlengkapan pakaian dari tekstil – *Cloting accessories from textiles*
16. 16101 Penggergajian kayu – *Sawmill*
17. 16102 Pengawetan kayu – *Preserved wood*

18.	16103	Pengwetanan rotan, bambu dan sejenisnya – <i>Preserved rattan, bamboo and the like</i>
19.	16104	Pengolahan rotan – <i>Processed rattan</i>
20.	16211	Kayu lapis – <i>Plywood</i>
21.	16213	Panel kayu lainnya – <i>Wood based panel</i>
22.	16221	Barang bangunan dari kayu – <i>Carpentry and joinery</i>
23.	16291	Barang anyaman dari rotan dan bambu – <i>Plaits made from rattan and bamboo</i>
24.	18111	Pencetakan umum – <i>Public printing</i>
25.	20112	Kimia dasar anorganik gas industri – <i>Basic inorganic chemicals industrial gas</i>
26.	20115	Kimia dasar organik yang bersumber dari hasil pertanian – <i>Basic organic chemical of vegetables or animal origin</i>
27.	20291	Perekat / lem - <i>Adhesive</i>
28.	21022	produk obat tradisional/Jamu – <i>Herbal medicine</i>
29.	22112	Vulkanisir ban – <i>Vulcanized tire</i>
30.	22121	Pengasapan karet – <i>Smoked rubber</i>
31.	22122	Remilling karet – <i>Remilling rubber</i>
32.	22123	Karet remah – <i>Crumb rubber</i>
33.	23941	Semen - <i>Cement</i>
34.	25952	Paku, mur dan baut – <i>Chain, springs and screw</i>
35.	25992	Peralatan dapur dan peralatan meja dari logam – <i>Kitchen ware</i>

36.	29300	Suku cadang dan aksesoris kendaraan bermotor – <i>Manufacture of bodies for motor vehicles, trailer and semi trailer</i>
37.	31004	Furnitur dari logam – <i>Metal furniture</i>
38.	32201	Alat musik tradisional - <i>Traditional musical instrument</i>
39.	33122	Jasa reparasi mesin untuk keperluan khusus – <i>Services of machine Repairation for particular utilities</i>
40.	33151	Jasa reparasi kapal, perahu dan bangunan terapung – <i>Alteration and repair of ships/boats</i>
