Data disajikan dalam tabel dan dikelompokkan dalam kategori yang bersesuaian.

*Publication Bina in Figures 2019 is part of annual publication District in Figures published by Statistics Puncak. 2019 series contains data in 2018 and previous years which are obtained from various government agencies and institutions, completed with our own survey, census, and projection's result. Data are presented in table layout and categorized as required.*

Kami menyadari pentingnya kebutuhan data mengenai pembangunan daerah dan telah berusaha sebaik mungkin dalam menyusun publikasi ini. Namun kami juga menyadari akan banyaknya kekurangan publikasi ini, terutama dari ketersediaan data yang disajikan. Kami sangat mengharapkan saran dan kritik dari berbagai pihak agar kami dapat menyajikan publikasi yang lebih baik lagi di masa yang akan datang.

*We realize how important the data is for regional development and have put our best efforts in presenting this publication. But we also realize that this publication is far from perfect – hence all inputs and critics are very welcomed for the better publication in the next time.*

Kami menyampaikan terima kasih dan penghargaan setinggi-tingginya kepada semua pihak, terutama dinas dan instansi pemerintah, yang telah memberikan dukungan dalam kegiatan penyusunan publikasi ini. Kami berharap semoga publikasi ini bermanfaat bagi kita semua, terutama dalam menyusun perencanaan dan mengevaluasi hasil-hasil pembangunan.
