KATA PENGANTAR

Publikasi Statistik Industri tahun 2015 ini merupakan publikasi tahunan sebagaimana publikasi sebelumnya mengenai sektor industri manufaktur. Data yang disajikan dalam penerbitan ini mencakup data industri manufaktur skala besar dan sedang keadaan tahun 2015. Jenis data yang disajikan antara lain: banyaknya dan nilai pemakaian bahan baku.

Publikasi ini menggunakan Klasifikasi Baku Lapangan Usaha Indonesia (KBLI) 2009 yang disesuaikan dengan *International Standard Industrial Classification of All Economic Activities (ISIC) Rev 4*. Diharapkan publikasi hasil survei tahunan perusahaan industri besar dan sedang, dapat bermanfaat.

Akhirnya pada kesempatan ini kami mengucapkan terima kasih dan penghargaan yang sebesar -besarnya kepada semua pihak, khususnya kepada perusahaan industri yang telah bersedia mengisi kuesioner sehingga publikasi ini dapat diterbitkan. Saran dan kritik untuk perbaikan publikasi ini sangat kami harapkan.

Surabaya, Nopember 2017

BPS Provinsi Jawa Timur

Kepala,

TEGUH PRAMONO, MA

STATISTIK INDUSTRI MANUFAKTUR

(BAHAN BAKU)

I. PENDAHULUAN

Sektor industri manufaktur memegang peranan cukup penting terhadap perkembangan perekonomian Jawa Timur, sehingga ketersediaan informasi mengenai data statistik di bidang industri manufaktur sangat dibutuhkan konsumen data (peneliti, pelaku usaha, konsumen data lainnya) maupun untuk perencanaan dan pengambilan kebijakan di sektor industri oleh pemerintah.

Dalam kegiatan industri faktor ketersediaan bahan baku merupakan unsur utama yang harus tersedia, karena tidak mungkin suatu produk akan tercipta bila bahan baku tidak tersedia. Informasi mengenai jenis dan tempat perolehan bahan baku sangat diperlukan untuk mendukung kelancaran kegiatan di sektor industri.

Oleh karena itu, Badan Pusat Statistik (BPS) sebagai lembaga non kementerian yang diberi wewenang menyajikan data statistik untuk perencanaan pembangunan sesuai dengan undang-undang nomor 16 tahun 1997 tentang statistik, salah satunya menyelenggarakan kegiatan statistik berupa pengumpulan data di sektor industri.

Data mengenai jenis dan asal perolehan bahan baku banyak dibutuhkan oleh konsumen data terutama para pelaku usaha maupun pemerintah. Untuk memenuhi keinginan konsumen data tersebut, BPS Provinsi Jawa Timur berupaya untuk menyediakan data statistik mengenai jenis bahan baku maupun asal perolehan bahan baku tersebut dalam bentuk publikasi Statistik Bahan Baku Industri Manufaktur Besar dan Sedang 2015.

II. TUJUAN

Penerbitan publikasi Statistik Bahan Baku Industri Manufaktur Besar dan Sedang 2015, bertujuan:

- i) Untuk menyajikan data runtun waktu mengenai banyaknya dan nilai pemakaian bahan baku yang digunakan pada industri manufaktur besar dan sedang guna memenuhi permintaan konsumen data di bidang industri, sehingga dapat membantu para pengguna data dalam menganalisa secara langsung perkembangan sektor industri tanpa harus melakukan pengolahan data.
- ii) Menyediakan data untuk pemerintah dalam hal pembuatan kebijakan terkait penyediaan bahan baku dan bahan penolong yang digunakan dalam proses industri, sehingga penciptaan produk dapat terkontrol dan berjalan dengan baik.

III. KONSEP DAN DEFINISI

Industri Manufaktur adalah suatu kegiatan ekonomi yang melakukan kegiatan mengubah suatu barang dasar secara mekanis, kimia, atau dengan tangan sehingga menjadi barang jadi/setengah jadi, dan atau barang yang kurang nilainya menjadi barang yang lebih tinggi nilainya dan sifatnya lebih dekat kepada pemakai akhir. Termasuk dalam kegiatan ini adalah jasa industri/makloon dan pekerjaan perakitan (assembling).

Jasa Industri adalah kegiatan industri yang melayani keperluan pihak lain. Pada kegiatan ini bahan baku disediakan oleh pihak lain sedangkan pihak pengolah hanya melakukan pengolahannya dengan mendapat imbalan sebagai balas jasa (upah makloon).

Perusahaan atau usaha industri adalah suatu unit (kesatuan) usaha yang melakukan kegiatan ekonomi, bertujuan menghasilkan barang atau jasa, terletak pada suatu bangunan atau lokasi tertentu, dan mempunyai catatan administrasi tersendiri mengenai produksi dan struktur biaya serta ada seorang atau lebih yang bertanggung jawab atas usaha tersebut.

Industri sedang adalah perusahaan industri yang mempunyai tenaga kerja 20 orang sampai dengan 99 orang.

Industri besar adalah perusahaan industri yang mempunyai tenaga kerja 100 orang atau lebih.

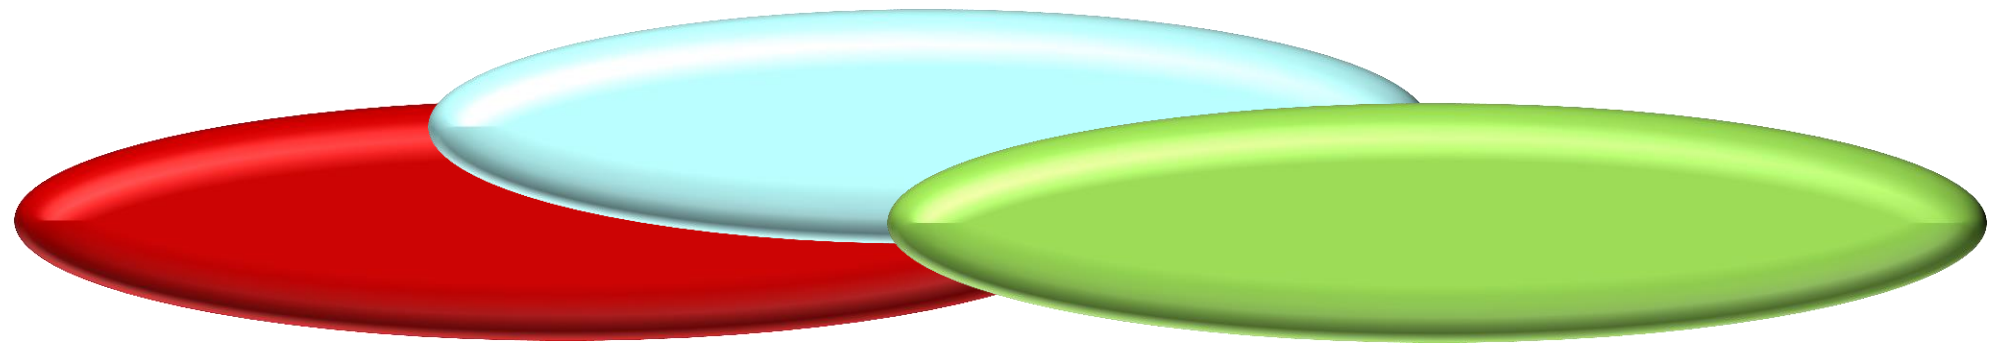

Bahan Baku adalah semua jenis bahan baku dan bahan penolong yang digunakan dalam proses produksi dan tidak termasuk: pembungkus, pengepak, pengikat barang jadi, bahan bakar yang dipakai habis, perabot/ peralatan.

Klasifikasi Baku Lapangan Usaha

Indonesia (KBLI) adalah klasifikasi lapangan usaha yang digunakan untuk mengelompokkan berbagai kegiatan ekonomi ke dalam lapangan usaha baik 2, 3 dan 5 digit.
